

VECV launches Pro 6000 series heavy trucks

CHENNAI: VE Commercial Vehicles Ltd (VECV) has launched its Eicher Pro 6000 series of heavy-duty (HD) trucks, developed and manufactured jointly by Volvo Group and Eicher. The new range includes 31-tonne and 25-tonne haulage trucks and 25-tonne tipper. "Pro 6000 Series is the next-generation HD trucks that offer best-in-class fuel efficiency, superior productivity, and a host of modern and intelligent features. The new series promises to deliver maximum profitability to the customers," Vinod Aggarwal, Chief Executive Officer, VECV, said in a statement. -- Special Correspondent
