

Eicher launches Pro 6000 series heavy-duty truck

PANAJI: VE Commercial Vehicles Limited (VECV) announced the launch and availability of Eicher Pro 6000 series, the next generation heavy duty trucks in West India with a customer experience event in Mumbai. The event will see the presence of financiers and customers from Maharashtra, Goa, Gujarat and MP over a 4-day period. The new range of Eicher Pro 6031 (31T GVW 8X2), Eicher Pro 6025 (25T GVW 6x2) haulage trucks and Eicher Pro 6025T (25T GVW 6X4) tipper that combines cutting-edge technology with design, marks the entry of Eicher brand into a new phase of growth and consolidation in the heavy-duty commercial vehicle market. The Eicher Pro 6000 Series representing 'The future of Indian trucking' has been developed and manufactured as a result of the synergistic working between the Volvo Group and Eicher. NT
