

# Eicher Trucks and Buses strengthen their presence in the reefer truck segment.

In a bid to strengthen its presence in the cold chain logistics sector, Eicher Trucks and Buses has introduced a series of new reefer trucks in the Pro 1000 and Pro 6000 series category. The trucks include the Pro 1059XP reefer, Pro 1110XP reefer and Pro 6025 reefer. They come with an option of 14 ft., 20 ft. and 24 ft. reefer

structure, and have a Gross Vehicle

Weight (GVW) of between seven tonnes and 25-tonnes. Claimed to offer optimal fuel efficiency, the reefer truck range is claimed to have been equipped with a new refrigeration unit, which operates in a temperature range of (-) 25 degree Celsius to (+) 25 degree Celsius under ambient conditions of 50 degree Celsius.
