# Trucking intelligence from Eicher

Eicher Trucks and Buses, part of Volvo Eicher Commercial Vehicles launched Eicher Live – a telematics solution that provides profitable fleet management by monitoring movement, fuel consumption and maintenance needs. Eicher Live will be made available on the new range of Pro 8000 and Pro 6000 trucks and buses. Also on the stand was the Skyline Pro bus, a hybrid system school bus with vehicle tracking, geo-fencing, camera with record feature and an advanced fire suppression system.
