

# MAKE EVERY DROP COUNT.

## Introducing the Eicher Pro 8049 6x4 - Equipped with the next gen VEDX8 280 HP engine that delivers excellent fuel efficiency at high average speeds.

The heavy duty 49 tonne Eicher Pro 8049, enabled with the VEDX8 common rail diesel engine delivers a flat torque over a wide range of rpm (1100-1700) and high torque at low revolutions for unmatched fuel efficiency. That, coupled with other features like cruise control, bogie lift axle, integrated drivelines, aerodynamic cabins and connected services like fuel coaching and driver training with the support of Eicher Live Services are a big factor in accelerating profits by saving on fuel.
